This will be the last official meeting of NNSA. Last month a vote was passed and starting in Jan. we become a chapter of ASIS. I see a lot of work to be done at this meeting and again in Jan.. Election of officers in Jan., dues for the year of "86". Deciding a name for the association, banking, logo changes, just for openers. If you have been wanting a chance to get active in the association the time is now.

I just talked to George and he told me he attended the ASIS confrence in Monteray Calif. on the 22nd of Nov. so he will have some important business to discuss with the group at the meeting.

So lets all get excited and start this all new association off with a bang!

Sincerely,

*Chris*
